

### A PROUD SERVICE HERITAGE

The first Volvo rolled off its Gothenburg production line in 1927 and, by the early 1930s, Volvos were already the vehicle of choice for the Swedish Police. We've been supplying Emergency Response Vehicles in the UK for over 50 years now, and that experience gives us a deep understanding of emergency fleet demands.

Besides offering an impressive range of factory-built emergency specification models, we can also adapt our cars to fulfil specific requirements.

In short, exceptional people in exceptional circumstances deserve exceptional cars. And Volvo is proud to deliver.

### OUR EMERGENCY RESPONSE VEHICLES

Our range comprises fully factory-fitted Emergency Services versions of our V60, V70 and XC70 models. The V60 is a popular mid-range estate car, the V70 a luxury estate and the XC70 a luxury estate with all-terrain capability. Emergency Services models have bespoke chassis, wheels and brakes to maintain optimum performance even with increased payloads.

But that's not all. Along with the pioneering safety innovations and meticulous attention to detail you'd expect from Volvo, the vehicles feature reinforced 17" alloy wheels with five spokes for greater ventilation and durability, as well as robust 17.5" brakes designed for more intense driving.

These cars are as comfortable in a race to save lives as they are in everyday driving situations.

# LIFESAVING FEATURES AS STANDARD

Volvo's mission has always been to keep people safe. Since we introduced the three-point safety belt to the world in 1959, it's estimated that over one million lives have been saved.

We continue to pioneer safety features and every day strive towards achieving the following vision: That no one will be seriously injured or killed in a new Volvo by 2020.

#### Seat belts

We invented the three-point seatbelt in 1959 and, in the interest of safety, made the design patent available to other car manufacturers for free. Now, our seatbelts automatically tighten within a few thousandths of a second after a collision.

#### **City Safety**

City Safety lends a hand when traffic comes to a sudden halt, preparing the brakes for a quicker response or automatically braking if there is no time to respond.

#### **Adaptive cruising**

Adaptive Cruise Control makes sure your car keeps its distance to the car in front. It makes driving a lot more relaxing especially in slow-moving city traffic.

#### **Active High Beam**

In darkness, Active High Beam automatically senses other vehicles, pedestrians and cyclists and temporarily dims your beam.

#### **Blind Spot Information System (BLIS)**

With radar sensors that alert you to surrounding cars, you can change lane with complete awareness.

#### Lane Keeping Aid

If your car starts to veer out of its lane, our Lane Keeping Aid kicks in, gently steering you back and sending warning vibrations to keep you alert.

#### **Pedestrian Detection**

This helps you avoid accidents by detecting people near your vehicle. It even brakes for you should the situation demand.

#### **Forward Collision Warning**

Forward Collision Warning scans all objects 150 metres or less in front of your car and, if an accident is imminent, it warns you and pre-charges the brakes for a quick stop.

#### Stronger construction

Made of super-strong boron steel and lighter steels, our safety cages hold strong during an accident, while allowing the energy to disperse to help keep you safe.

### EMERGENCY RESPONSE SPECIFICATION ADDITIONAL FEATURES

In addition to Volvo's impressive standard safety features, our factory-fitted Emergency Response Specification vehicles give you the following extras. These make the vehicles even more fit for purpose.

#### 17" reinforced alloy wheels

Specially reinforced, these 5-spoke alloys also offer superior ventilation and cooling.

#### 17.5" brakes with wear sensor wires

Volvo's largest brakes are specially designed for more intense driving. They feature a sensor on the dashboard to warn when the brake pads are wearing down.

#### Additional full size 17" reinforced spare wheel (not V60)

Designed so that you can quickly swap wheels if tyres are worn or punctured. Please note that this wheel does not fit the well in the car's cargo area and should be stored in your workshop.

#### Fit for purpose tyres:

- 225/50 R17 W Michelin Primacy S80/V70
- 235/45 R17 W Pirelli V60
- 235/55 R17 V Continental XC70

#### Tyre sealant kit and compressor

Included as backup in the event of a puncture.

#### Extra exterior door mirror on passenger side (not V60)

For use by the observer in the passenger seat. The mirror can be removed for covert cars.

#### **Emergency Services chassis with Nivomat shock absorbers**

Designed to allow for an increased payload while retaining optimum speed, handling and comfort.

#### Nivomat (automatic self-levelling suspension)

Designed to balance out increased payloads in the rear cargo area and improve handling at speed.

#### Steel safety net

Reinforced to prevent heavy, loose items from entering the passenger area.

#### Calibrated speedometer with +/- 2% accuracy and with 2 mph increments

Prepared by Instrument Repair Service (IRS).

#### Additional wiring and fuse box for Emergency Service equipment

Prepared for the fitting of additional electronic equipment.

### Upholstery, Emergency Vehicle Interior Off Black (not V60), Textile/Tricotech Off Black available as an option

Emergency Vehicle upholstery has a textile core with hardwearing leather-faced side panels. This gives greater comfort for longer shifts plus the durability to withstand quick demounting and prolonged contact with utility belts.

#### Vinyl rear seat cover for upholstery protection

One-piece bench seat, easily washable and with no cavities for the hiding of contraband by suspects.

#### **Rubber moulded floor mats**

Hardwearing and easy to clean.

#### **Heavy-duty battery** (70 ampere hours/760 cold cranking amps)

Larger capacity battery designed to cope with additional electronic equipment.

#### 180 amp alternator

#### 70-litre fuel tank

Increased capacity for longer patrol time.

#### Service intervals set to 12,000 miles/12 months/650 engine hours

Although 18,000 miles is the manufacturer recommended figure, in our experience customers tend to service at 9,000 – 12,000 mile intervals. We have therefore set the service interval at 12,000 miles for emergency use. Intervals can be altered to meet individual fleet requirements.

#### **Optional European Type Approval Certificate of Conformity**

Required when purchasing an Emergency Services Specification Vehicle to be registered as a diesel car (e.g. in the case of a covert vehicle).

#### Free familiarisation training

We offer free familiarisation training for drivers and technicians taking on new Volvo models.

F101 - Leather (Off Black)	£845.00

### TURNKEY VARIANTS FITTED TO YOUR REQUIREMENTS

Our Emergency Specification vehicles are all factory-fitted with tougher chassis, reinforced alloy wheels, bigger brakes and hardwearing upholstery. If you wish, you can take the specification even further and order a 'turnkey variant'. As the name suggests, these cars are fitted out to your precise requirements and ready to drive.

You can see examples of turnkey variants in the table opposite.

Besides giving you a vehicle ideally suited to your needs, there are a number of other advantages to purchasing a turnkey variant from Volvo.

- One-stop ordering means you don't have to liaise with a number of parties.
- The Volvo warranty includes all fitted parts.
- Should there be a problem, you know it will be resolved by Volvo. If a third party converter is involved, there may be an issue over responsibility.
- All vehicles will have passed the Metropolitan Brake and Home Office EMC Spec 6 Test.

ROLE	FEATURES	
Roads Policing	Marked or unmarked cars, with cameras and speed detection equipment installed and bespoke load carrier.	
Models/engines recommended: V60 D5/T5, V70 T5		
Armed Response	Fully equipped with various Gunbox designs to meet individual force requirements and space for up to 5 officers.	
Models/engines recommended: XC70 D5, XC90 D5		
Intermediate/Area Car	Hatchback, Estate or Saloon to meet lower power performance requirements.	
Models/engines recommended: V40 D3/D4/T3, V60 D4/T3, S60 D4/T3, S80 D4		
Covert/Surveillance	Specialist cars that blend in but deliver performance when required, with covert lights and siren.	
Models/engines recommended: V40 D4/T5, V60 T5, V70 T5		
Dog Cars	Proven factory-built design for twin dog cage on a Large Estate platform.	
Models/engines recommended: V70 D3/D4/D4 AWD, XC70 D5 AWD		
Ambulance RRV	Response capable vehicles with large payload area, equipped to deal with Response or Patient Transfer situations.	
Models/engines recommended: V70 D3/D4/D4 AWD, V60 D3/D4, V60 Cross Country, XC70 D4/D4 AWD/D5 AWD		
Fire Officer Car	Flexible and versatile models to suit on/off road and payload carrying requirements.	
Models/engines recommended: V60 D3/D4/D5, V60 Cross Country, S60 Cross Country, V70 D3 /D4/D4 AWD, XC60 D4/D4 AWD/D5 AWD, XC70 D4/D4 AWD/D5 AWD		
Airport/Port/Security Patrol/ Highways and Rescue	A choice of large capable models, designed and equipped to meet the individual role requirement.	
Models/engines recommended: V60 Cross Country, S60 Cross Country, V70 D4 AWD, XC60 D4/D4 AWD/D5 AWD, XC70 D4/D4 AWD/D5 AWD		

### STANDARD SHOWROOM MODELS

This hatchback received the top rating of five stars in the Euro NCAP collision test and its overall result is the best ever recorded by the institute.

For use in covert surveillance and as Senior Officer company cars, Volvo are pleased to offer a range of unmarked vehicles. All cars can be modified to your requirements.

Our premium sports saloon is comfortable and spacious and comes with City Safety as standard. The V60 offers the comfort and performance of the S60 with the added space of a five-door estate.

S60/V60	
ENGINE	
T3 (152 hp)	
D2 (120 hp)	
D3 (150 hp)	
D4 (190 hp)	
D4 AWD (190 hp)	

V60 TWIN ENGINE

Featuring pioneering technology, this is the world's first Diesel Plug-In hybrid and gives fuel efficiency of up to 155 mpg with CO<sub>2</sub> emissions as low as 48g/km.

#### **V60 TWIN ENGINE**

#### **ENGINE**

D6 Twin Engine (220 + 68 hp)

The all-new XC90 is our flagship car. It combines pure, uncluttered luxury

with advanced safety and comfort for all seven passengers.

The S80 is a high-performance luxury saloon. Meanwhile, the V70 is a luxury estate car that combines power, elegance and safety, and the XC70 adds all-road capability to the V70 package.

### V70/S80/XC70 **ENGINE** D3 (150 hp) (V70 only) D4 (181 hp) D4 AWD (181 hp) (XC70 only) D5 AWD (220 hp) (XC70 only)

XC90 **ENGINE** D5 AWD (225 hp) T6 AWD (320 hp) T8 Twin Engine (320 + 87 hp)

> XC60 ENGINE

D4 (190 hp)

D4 AWD (190 hp)

D5 AWD (220 hp)

The XC60 combines the practicality of a premium family SUV with the style of a sporty estate car.
